

CCTI's Team

CCTI'S senior team is a synergistic combination of seasoned, experienced entrepreneurs and executives who have over four decades of comprehensive business track records. Their expertise encompasses extensive domestic and international experience spanning the critical aspects of many industries, including energy, logistics and transportation, and information technology. They have decades of experience in strategic selling and marketing programs, and have developed and executed global marketing initiatives, which have built multi million dollar businesses as entrepreneurs, sales executives and consultants. Their experience also includes start-up operations and mergers, acquisitions and sales of companies. Among the other industries in which they have built businesses as entrepreneurs, served as executives, consultants and board members are on-line electronic trading, medical devices, pharmaceuticals, commercial and industrial insulation, specialty tools, food processing, publishing, factory automation software, publishing and internet application service providers.

Dr. Edward Jennings — Director and Chairman of the Board
 Former President of University of Wyoming
 Former President of The Ohio State University
 Mechanical Engineer by profession
 MBA and PhD in Finance from the University of Michigan
 Extensive experience on various trade missions in the Far East, Europe, and Africa for several corporations and governmental agencies
 Widely published in academic journals

Robin Eves - Director, President, CEO
 Robin brings to CCTI over thirty successful years of global experience in all aspects of the energy markets. He has held senior management positions in London, Geneva and the US. Robin has concluded business in the US, Europe, Russia, the Middle East, Africa, South America and more recently in India and Asia. He has extensive experience in India (his birth country) and has strong industry and political contacts throughout the world.

During his career, Robin has specialized in joining small teams of professionals and has successfully built them into global companies or divisions within larger organizations. He has very strong banking contacts in the US and Europe and brings the confidence of the investment community to CCTI and the interest from several large funds.

He is an expert at extracting value throughout the energy value chain and his extensive knowledge of the business cultures and ethics throughout the world will be a very valuable addition to our team as we build our Indian, Asian and Far Eastern businesses.

Robin has held senior positions in companies such as Cargill, Enron and UBS where he was a Managing Director. **Doug Hague** - Director, Chief Operating Officer (COO)
 Most recent position was Corporate Vice President of SAIC responsible for directing and developing the company's international strategy and business expansion efforts into the China and India Markets.

Held senior executive positions at SAIC, Xerox and Unisys, in addition to private consulting and corporate strategy development.

Extensive international experience in helping companies capitalize on changing economies and creating action plans that minimize cash impacts to protect assets from currency devaluations.

Impressive record of successfully developing and implementing strategies that create shareholder value, establishing internal capability, improving client satisfaction, and building solid management teams.

Held operational responsibilities in China, North America, Africa, Asia, Eurasia, the Middle East and the Pacific Rim. Over a 30 year career worked in marketing, sales, developing strategies in diversified fields of energy, finance and government.

Worked in over 25 countries in corporate development and management consulting, where he produced dramatic multi million dollar results in changing and emerging markets.

Native of the United Kingdom and subsequently a resident of South Africa before making his home in the United States, and holds the equivalent of Bachelor of Science in Business Administration.
